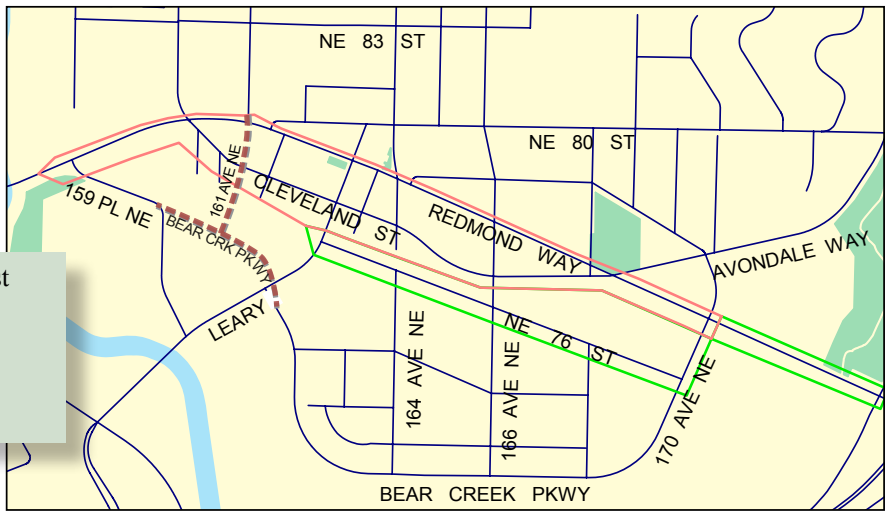
Vision Statement

"...to reclaim our downtown as an economically healthy, people-friendly place, enhanced by the movement of pedestrians, bikes, cars, and a diversity of businesses..."

The City of Redmond has begun the Downtown East/West Corridor Study to explore design alternatives that will revitalize the Downtown core through making Redmond Way and Cleveland Street two-way streets and improving street connections



Downtown East/West Corridor Study

Vicinity Map

June 2008

The Project's Guiding Principles Are:

- **Circulation:** Streets should provide connectivity and circulation for all modes while maintaining a level of traffic flow consistent with an urban downtown
- **Parking:** Parking should be available for businesses, residents, visitors, and local deliveries and should support the pedestrian environment and the viability of transit
- **Travel Choices:** Facilities and services should be designed to support the goal of having transit, walking, bicycling, and carpooling comprise a significant share of the trips to and from Downtown
- **Parks and Open Spaces:** Streetscape, parks, and open space should create a sense of place, be linked, and serve a variety of purposes
- **Land Use:** Streets should accommodate and encourage the future land use vision
- **Great Streets:** Downtown streets should contribute to and reinforce this area as a destination and the heart of Downtown by creating economically vibrant and pedestrian supportive streets
- **Cleveland Street:** Cleveland Street should be a traditional "Main Street" promenade
- **Railroad Right-of-Way:** Any design should take full advantage of this asset, including high capacity transit, non motorized trail, and other opportunities

Downtown East/West Corridor Community Meeting

Come see how we can create an economically-healthy and people-friendly Downtown

on Thursday, June 19, 2008
Redmond City Hall Lobby
5:00pm until 7:30pm
There will be a brief presentation at 5:45pm in the Council Chambers

Please RSVP to 425.556.2854 or kbambans@redmond.gov by Tuesday, June 17, 2008 so we can provide refreshments for meeting participants

For more information, please see the project website at http://www.redmond.gov/ConnectingRedmond/studies/DEWCS.asp
