Overlake Neighborhood Plan Update 2007 - 2010
DRAFT: Recommended Follow-up Projects and Future Considerations
As defined by the Overlake Single-Family, Residential Citizen Advisory Committee
Items to be further developed by Overlake Neighborhood Residents

Following more than two years of study and deliberation, the Overlake Single-Family, Residential Citizen Advisory Committee (CAC) completed their recommended updates for the Overlake Neighborhood Plan. The CAC also identified several items that fit better as follow-up projects or future considerations rather than as policies in the Overlake Neighborhood Plan. Without diminishing the value and importance of the items, the CAC elected to reserve the following items for additional review and future consideration as time and resources allow after adoption of the neighborhood plan update.

The Overlake Single-Family, Residential Citizen Advisory Committee or other similar group of neighborhood residents shall initiate review of the following items with the City in order to establish additional priorities as defined in the list of Overlake Neighborhood Priority Projects.

PROJECT/NAME	DESCRIPTION	RECOMMENDED ACTION
Trail Connection from Overlake Neighborhood to Marymoor Park	• Consider a non-motorized connection from the single-family, residential area of the Overlake neighborhood to Marymoor Park such as an alignment that crosses the Sammamish River from or in the vicinity of the intersection of NE 51st Street and West Lake Sammamish Parkway and accesses the park near the current off-leash dog area.	• Continue conversation with Redmond's Parks Department during the PARCC Plan update process. • Thereafter, initiate a check-in with Parks Planning staff regarding opportunities for additional neighborhood input.
Landscaping at Cascade View Neighborhood Park	• In coordination with future planned improvements to Cascade View Neighborhood Park, promote greater amounts of landscaping at appropriate locations within the park.	• Contact Parks Planning staff to obtain information regarding a master plan for Cascade View Neighborhood Park. • Follow up to take part in future public opportunities such as establishing park stewards. • Request information regarding the Green Redmond program.

Overlake Neighborhood Plan Update 2007 - 2010
DRAFT: Recommended Follow-up Projects and Future Considerations
As defined by the Overlake Single-Family, Residential Citizen Advisory Committee
Items to be further developed by Overlake Neighborhood Residents

PROJECT/NAME	DESCRIPTION	RECOMMENDED ACTION
Stormwater Runoff, Infiltration, and Infrastructure	• **Consider neighborhood improvements regarding stormwater management including:** o **On-site mitigation techniques** o **Education and awareness for current residents** o **Outreach to learn of and consider additional neighborhood-based capital improvements**	• **Work with Redmond's Natural Resource division to learn about and collaborate regarding potential, future improvements to stormwater management as well as local and regional program opportunities such as "Puget Sound Starts Here".** • **Obtain information from Redmond's Planning staff to help promote the City's Green Building and Green Infrastructure Incentive Program for new residential development.**
Traffic Calming	• **Consider traffic calming techniques where conditions warrant additional study or mitigation including:** o **158th/159th Avenues NE** o **Bel-Red Road and West Lake Sammamish Parkway** o **NE 51st Street and West Lake Sammamish Parkway** o **156th Avenue NE and NE 51st Street**	• **Initiate a neighborhood meeting to review vicinity transportation plans including the City's Transportation Master Plan update process. Consider coordinating this neighborhood meeting with the Idylwood neighborhood.** • **Continue to work with City staff regarding monitoring traffic reports and possible location specific treatments.** • **Participate in updates to the City's Transportation Master Plan and Comprehensive Plan.**
