GENERAL OPERATIONAL PROCEDURES for the delivery of law enforcement communications services by the City of Redmond to the City of Duvall.

INTRODUCTION:

The Redmond Police Communications/911 Center is a progressive customer service oriented organization designed to perform a myriad of communication and information functions rapidly and accurately. The volume, complexity, immediacy, and accuracy of the work performed requires standard operating procedures that are often specifically defined and uniform. In establishing procedures to provide Communications services for Duvall/Carnation, a general rule has been followed:

Standard practices and procedures with Duvall/Carnation will not vary from existing Redmond Communications procedures unless significant reasons dictate a variance.

This general rule should be applied to issues in dispute.

However, Redmond does recognize that providing high quality services to Duvall/Carnation may necessitate some accommodation by Redmond in service delivery to satisfy service needs that are unique to Duvall policing.

A. RADIO USE, CALL RECEIVING AND DISPATCHING

The Duvall Police Department will abide by the Redmond Police Department Manual of Standards Communications Chapter 30.

The Redmond Police Communications/911 Center will answer Duvall/Carnation Police telephone calls for police services in conjunction with the Redmond Police telephone calls for police services. The Duvall/Carnation Police calls will receive the same screening and processing by all call receivers including entry in the Computer Aided Dispatch (CAD) system when appropriate.

The processed calls will be classified by incident nature and prioritized equally with Redmond calls according to the three call response classifications described in the Redmond Police Manual of Standards Communications Chapter 30.

Upon the conclusion of any incident entered in CAD, Duvall Police officers will provide the Communications Center an appropriate clearing and disposition code as described in the Redmond Police Officers Reference guide.

The Redmond Communications/911 Center will perform audio log data searches and duplication tapes from logging data recorders upon written request from the Duvall Police Department.

The Redmond Communications/911 Center reserves the right to refuse to perform audio searches/duplication services that may require extensive labor or are not warranted in the opinion of the Redmond Police Communications Supervisor.

B. DATA AND WARRANT SERVICES

General: Duvall Police Department maintains a signed agreement with the Washington Criminal Information Center (WACIC) to abide by the laws and regulations governing WACIC users.

Redmond will provide all WACIC services currently possessed by Redmond to Duvall Police Department consistent with the Redmond Communications/911 Center internal practices and policies governing the use of its facilities.

Periodic audits are conducted to insure the accurate and validity of data in WACIC. Duvall Police Department must assist the auditing of Duvall Police Department's data entries.

Teletypes directed to Duvall Police Department and teletypes directed to all police departments will be transmitted to Duvall Police Department via radio, telephone, fax, or CAD messaging if the Communications Center Supervisor deems the information urgent. Otherwise, a copy of the teletype will be mailed to Duvall Police Department.

1. Arrest Warrants:

Redmond Communications/911 will enter original arrest warrants from district or municipal courts with which Duvall contracts for court services into WACIC. The Redmond Communications/911 Center has rigid procedures regarding the processing and computer entry of arrest warrants to minimize inappropriate arrests. Duvall Police Department, the district court, and Redmond Communications/911 will abide by the following procedures regarding computer entry and service of district court warrants.

- a. Duvall Police Department will select the district court warrants to be entered by Redmond Communications/911. The original warrants (not copies) will be delivered to the Redmond Police Records Division, which will screen the warrants and attachments for completeness and return incomplete warrants for correction. The Redmond Records Division will then forward the original copy to the Redmond Communications/911 Center which will then enter the acceptable original warrants into WACIC. Original warrants will then be filed and maintained in the warrant storage area within the Communications Center. Warrant entries into WACIC must be from original warrants, which are in the possession of the Redmond Communications/911 Center.
- b. District courts and the Duvall Police Department are responsible for notifying the Redmond Police Communications/911 Center immediately of changes in the status of arrest warrants.
- c. District courts will place an expiration date on their warrants in accordance with the WACIC expiration requirements. The Redmond Communications/911 Center will periodically purge these warrants using the expiration date, and will return the purged warrants to the court.
- d. The Duvall Police Department is responsible for transporting persons arrested on warrants generated by activity within their jurisdiction.

ATTACHMENT A

- e. If Duvall Police Department elects to book a prisoner in jail, the Redmond Communications/911 Center must be immediately notified by radio to verify the warrant to determine its validity, and teletype or fax the agency booking the prisoner the contents of the warrant. Duvall Police Department or district courts must immediately advise the Redmond Police Communications/911 Center by phone of incidents when a warrant is served and bail posted at either that department or court. The Redmond Communications/911 Center will then clear the WACIC entry.
 - f. To preclude re-arrests on the same warrant, the Redmond Police Department strongly urges the Duvall Police Department not to make copies of arrest warrants for themselves, release copies to other police agencies, or permit file copies to leave their station facility. The Duvall Police Department is responsible for all outstanding copied warrants they produce and erroneous arrests or re-arrests as a consequence of copied warrants.
2. **Stolen Vehicles:**
Immediately after completing a Vehicle Theft Report, signed by the victim, Duvall Police Department will forward the theft information by radio or phone to the Redmond Communications/911 Center. A call receiver will issue a police report case number and make the appropriate WACIC data entry. A copy of the Vehicle Theft Report will be maintained by the Duvall Police Department and be readily available to the Redmond Communications/911 Center for verification purposes. The Duvall Police Department must immediately report to the Redmond Communications/911 Center recoveries of all stolen vehicles and maintain a copy of the recovery report at the Duvall Police Station Section with the appropriate case number. The Redmond Communications/911 Center will make the proper notifications and arrangements with the originating agency at the time of recovery.
 3. **Vehicle Impound:**
The Redmond Communications/911 Center will enter into the CAD Tow log, Duvall Police Department's temporary impounds, private impounds, and repossessed vehicles. Abandoned vehicles and police impounds will be entered into WACIC as required.
 4. **Stolen Property:**
Duvall Police Department may enter stolen property information into WACIC by using the following procedures:
 - a. Enter the property/item information utilizing the Duvall Police Department ACCESS/WACIC Terminal.
 - b. Requesting stolen property data entry by Redmond Communications/911 via telephone.
 - c. The Duvall Police Department is responsible for notifying the Redmond Communications/911 Center of recovered stolen property to coordinate timely removal of the WACIC stolen property entry.

ATTACHMENT A

5. Missing Person/Juvenile Runaways:
The Redmond Communications/911 Center will enter Duvall Police Department's Missing Persons and Juvenile Runaways into WACIC and NCIC as required. Duvall Police Department will be responsible for any and all follow up on runaway entries to determine changes in status. They will be required to notify the Redmond Communications/911 Center immediately of any changes (i.e., runaway is back home, etc.).

6. Entry Procedures:
After receiving a police report case number, Duvall Police Department will telephone the Redmond Communications/911 Center and provide sufficient information to enter missing persons and runaway juveniles into WACIC. The call receiver will make the appropriate WACIC entry. A copy of the case report will be maintained at the Duvall Police Department.
