Policy and Text		
Access to Neighborhood Commercial sites ~ Miller, Flynn LU-40 Neighborhood Commercial Designation Purpose. Provide for attractively designed small- to medium-scale neighborhood marketsbusinesses that offer convenience goods and services for the daily needs of nearby neighborhoods, and can serve as gathering places. Ensure that these centers are located and developed in a manner that Locate and develop these neighborhood commercial areas to:	Staff Recommendation/Reasoning December 1, 2010: The proposed policy criteria are intended to balance a number of objectives, including walkable/bikable access, economic viability for new neighborhood commercial (NC) locations, and predictability and stability for neighborhoods. While the criteria would ensure that any new NC zones maintain a minimum distance from Redmond's Urban Centers and thereby help support the viability of Downtown and Overlake Urban Center businesses, the criteria also support increased access to future NC zones from where citizens live and work. For example, by locating nearer to Business Park zones, employees would have access to the neighborhood commercial use during the workday and in particular, during lunch breaks.	Raised for discussion, 11/17/10, discussed 12/1/10, 12/8/10, 12/15/10 (note, this item remains open)
PromotesEnsure use, scale, and design compatibility with the vicinity neighborhood character; Helps reduce vehicle trip lengths and frequency; Encourages convenient Provide access to from multi-modal corridors, transit routes, and within the center, particularly for pedestrians and bicyclists; Connects by existing or planned pedestrian pathways; and bikeways; and transit routes to the to help minimize additional motorized trips on local streets; Serve as multi-seasonal, neighborhood(s) it serves; Serves as a gathering and meeting place	December 8, 2010: Staff recommends maintaining the proposed criteria for NC-1 as provided. However,- staff supports removing the park proximity criteria from NC-2, as the removal does not increase the permitted siting of the larger form of Neighborhood Commercial (NC-2). Stakeholders and commercial experts shared their interest and advisement regarding the locating of commercial places in close proximity to public parks. They felt that parks provide an opportunity for increased walking trips as well as visibility. For example, one citizen stakeholder described her interest in the ability to walk with her young children from a park to a restaurant or café to obtain lunch or other refreshments. Her particular interest included coffee, ice cream, and other easily transportable foods. Business owners offered similar interests regarding potential customer

proximity

• Encourage a sense of place due to close proximity, within one-quarter mile to an existing or planned park facility; and

<u>Provide sufficient parking on-street, on-site, or both.</u>

LU-40.2

Maintain compatibility with and limit impacts to the vicinity neighborhood character by considering application of NC-2 zones in locations that at a minimum meet the following criteria:

 Include no greater than three acres of combined commercial use and associated parking;

Are more than one mile from the Downtown and Overlake Urban Centers;

Are along a multimodal corridor, at an intersection with a collector arterial or higher classification street to support multiple modes of travel;

- Are within one-quarter mile of an existing non-motorized connection and connect to existing or planned public sidewalks, trails, and pathways;
- Are within one-quarter mile of a multi-family zone;
- Encourage a sense of place due to close proximity, within one-quarter mile to an existing or planned park facility; and

Provide sufficient parking on-site.

recommended criteria limit the locations where Neighborhood Commercial use could be established. They discussed their concern regarding walkable access from residential neighborhood locations.

December 1, 2010: Commissioner Miller reiterated and Commissioner Biethan concurred with an interest in greater access to Neighborhood Commercial locations. They suggested omitting criteria such as the proximity to parks and the required minimum distance from the City's urban centers. Commissioners also emphasized their interest in ensuring flexibility by minimizing barriers to development of Neighborhood Commercial.

Commissioner Miller added that policies did not adequately reflect the opportunities for locating Neighborhood Commercial in close proximity to business centers.

December 8, 2010: Commissioner Gregory suggested replacing "Encouraging a sense of place" in policy LU-40.1 and 40.2 with "Encouraging an integrated neighborhood place".

Commissioners continued discussing this item and tentatively closed the issue pending Commissioner Miller's input.

December 15, 2010: Commissioner Miller requested additional conversation regarding this item. He emphasized that interest in neighborhood commercial is becoming more favorable and prefers a proscriptive form of policy as opposed to a prescriptive. Commissioner Miller described additional flexibility for promoting and establishing workable guidelines. In particular, he requested omitting the Urban Center proximity (refer to issue #5) and the requirement for locating only in mixed-use neighborhoods.

Policy and Text		
	PC Discussion	
	November 17, 2010: Commissioner Miller suggested including criteria for a smaller type of Neighborhood Commercial that includes opportunities for stand-alone establishments such as a "mom and pop" grocery market. He discussed his interest in providing smaller commercial establishments in more locations to increase accessibility from where citizens live throughout Redmond.	
	December 1, 2010: Commissioner Hinman suggested utilizing a pilot program similar to the Innovative Housing program in addition to monitoring future development, interest, and concerns regarding Neighborhood Commercial.	
	December 8, 2010: Commissioner Flynn reiterated his interest in establishing additional zoning of NC-0.5 to encourage smaller types and greater opportunties for Neighborhood Commercial establishments in single-family areas. Commissioner Hinman suggested discussing Neighborhood Commercial with neighborhood citizens as part of the upcoming Neighborhood Network process in order to maintain frequent monitoring of citizen interest and concerns.	
	Commissioners continued discussing this item and recommended delaying closure pending additional discussion with Commissioner Miller.	
	December 15, 2010: Commissioners continued their deliberation of this item. Commissioner Miller described the use of proposed triggers as creating additional barriers. He suggested an innovative pilot approach. Commissioner Flynn added that the proposed version of NC-1 seemed likely to locate away from single-family residential areas. Commissioner Biethan suggested reducing the proximity to parks to carry out the value of creating integrated neighborhood places. Commissioner Gregory agreed with an innovative approach. Commissioners agreed that the

3.	Ensure transparency and predictability ~ Biethan	Staff Recommendation/Reasoning December 8, 2010: For the Commission's reference, process requirements regarding land use and specifically Community Development Guide Amendments and Comprehensive Plan Map and Policy Amendments are located in 20F.30.55 Type VI Review: Legislative, City Council Decisions.	Raised for discussion, 11/17/10, discussed and closed, 12/1/10
		20F.30.55-010 Purpose. A proposal to rezone land to Neighborhood Commercial would follow a Type VI review. The process includes a hearing and recommendation by the Planning Commission and an action by the City Council. For rezones, notice is provided to property owners within 500' of the project site in addition to legal notice posted in the newspaper and at several public locations in Redmond's Downtown. Review under the State Environmental Policy Act (SEPA) would be required. Public Comments	
		PC Discussion November 17, 2010: Commissioner Biethan emphasized ensuring transparency and predictability from the perspective of neighborhood citizens and the applicant. He described his interest in making certain that citizens have opportunity to understand and weigh in on proposed applications for Neighborhood Commercial zoning as part of the amendment process.	
4.	Address the requirement for parking lot landscaping within NC zones in comparison to other zones ~ Miller	Staff Recommendation/Reasoning December 8, 2010: Staff recommends maintaining the proposed amendment that requires all Neighborhood Commercial sites to include parking lot landscaping. While the Code Rewrite Commission supported	Raised for discussion, 12/1/10, pending

Flynn, Biethan	the policy amendments.	closure
Dealing and in the second in	NC-1, pg 3: omit "and will not attract new vehicle trips"	12/8/10, closed 12/15/10
Parking requirements are located in Exhibit B: Recommended Amendments	NC-2, pg 4: omit "and may attract limited, new vehicle trips"	
to the Redmond Community Development Guide Neighborhood Commercial portions for NC-1 and NC-2. Please refer to section 40 Allowed Uses and Basic Development Standards respective to the two zones.	Staff recommends maintaining the minimum parking requirements as they are reduced from current parking requirements in NC zones and other commercial zones; parking may be a requirement of financing; and a certain number of trips may occur such as in the case of the owner/employee or those related to specific purchases or during certain	
	types of weather.	
	Public Comments PC Discussion December 1, 2010: Commissioner Miller suggested omitting the minimum parking requirements within Neighborhood Commercial zones. He emphasized that a required minimum conflicts with goals and policies that promote walkability and bikability. Commissioners also suggested text amendments to the descriptions of the two NC zones, pgs. 3 and 4 of Exhibit A: Recommended Amendments to Redmond's Comprehensive Plan, Land Use Element.	
	December 8, 2010: Commissioners O'Hara and Flynn supported staff's recommendation and closed this item pending input from Commissioner Miller and Biethan.	
	December 15, 2010: Commissioner Miller suggested eliminating the minimum parking requirement in NC-1 to help reduce auto-dependency. He emphasized that lending agencies and developers should have the ability to determine minimum parking ratios.

${\bf Regulations}$

7. Floor Area Ratios (FAR) ~ Flynn, Hinman

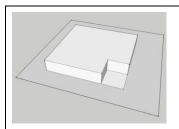

Floor Area Ratios are located in Exhibit B: Recommended Amendments to the Redmond Community Development Guide Neighborhood Commercial portions for NC-1 and NC-2. Please refer to sections 20 Maximum Development Yield, 30 Regulations Common to All Uses, and 40 Allowed Uses and Basic Development Standards.

Staff Recommendation/Reasoning

December 8, 2010: The Floor Area Ratio (FAR) is a factor of the development site. Using the area of the site, the applicant multiplies the FAR by the lot size. Lots shall be limited to no greater than one acre for NC-1 and no greater than three acres for NC-2. Ensuring that height does not exceed 35', the applicant balances the structure size with open space, parking, impervious surface, and lot coverage requirements/limitations.

For example, on a one-acre site, the maximum commercial gross floor area is limited to 13,068 sq. ft. An additional 13,068 sq. ft. is permitted as residential use. The resulting structures can vary provided that the structures do not exceed the combined permitted FAR and the internal uses do not exceed the respective permitted FAR.

The following table includes possible development scenarios upon a oneacre site within an NC-1 zone:

One acre site, 0.3 FAR, single-story

Regulations		
	loud shouting or yelling, will be permitted to attract attention.), the following portion of the Shoreline Master Plan Element of the Comprehensive Plan describes "water enjoyment uses" where carts ankiosks may also exist:	d
	A "water-enjoyment" use is a use that draws substantial numbers of people to the shoreline and that provides opportunities, through its design, location or operation, for the public to enjoy the physical and aesthetic benefits of the shoreline. Consistent with the goal of enhancing public access, Redmond's Shoreline Master Program policies encourae water-enjoyment uses in appropriate locations. Examples of recreation water-enjoyment uses include parks and trails; examples of commerciae water-enjoyment uses include museums, restaurants, aquariums, and some mixed-use commercial development. These uses often incorporate direct access to the shoreline, such as trails and viewing platforms. All the Sammamish River in high-intensity areas already zoned for commercial or office uses, shoreline policies encourage water-enjoyment uses. Such uses complement Redmond's long-range plans for high-density commercial and residential uses in the Downtown area. "Node of water-enjoyment use along the river will also complement the City's master plan for RiverWalk, a 1.5-mile shoreline corridor in the Downtown that envisions some pedestrian-oriented redevelopment of triver with small-scale retail, entertainment and cultural attractions, an public access features. The follow policies define the intent and limitation of water enjoyment	ge nal al ee ong ent es'' s
