# Exhibit B: Items 1 to 5- GOALS, VISION AND FRAMEWORK POLICIES

#### Introduction

As a community, Redmond has identified the importance of goals, policies and actions that speak to how the City can work in partnership with the community toward achieving a sustainable future. Redmond's Comprehensive Plan is a reflection of this and other the long-term values and preferences held by people in the community for how Redmond should look and feel over the next 20 years and beyond.

This element expresses those values and preferences through:

- A. Goals that summarize the intent of the Comprehensive Plan,
- B. A vision that describes what our community would be like in 203022 if the goals were achieved, and
- C. Framework policies that the City will follow to achieve the goals and vision.

The goals and framework policies express the core concepts on which the Comprehensive Plan is based and together set the direction for how various elements of the Plan address the trends, opportunities, and mandates facing the City.

The goals and framework policies are not listed in priority order, and need to be viewed as a whole that is balanced over time, just as the three pillars of sustainability, including environmental quality, economic vitality and social equity must be balanced to achieve a sustainable future. One goal or value shall not be pursued to the exclusion of the others.

### A. Goals for Redmond

◆ To conserve agricultural lands and rural areas, and to protect and enhance the quality of the natural environment, to sustain Redmond's natural resources as the City continues to accommodate growth and development.

◆ To retain and enhance Redmond's distinctive character and high quality of life, including an abundance of parks, open space, good schools and recreational facilities.

◆ To emphasize choices and equitable access in housing, transportation, stores and services.

- ◆ To support vibrant concentrations of retail, office, service, residential, and recreational activity in Downtown and Overlake.
- ♦ To maintain a strong and diverse economy, and to provide a business climate that retains and attracts locally owned companies as well as internationally recognized corporations.

- ◆ To provide opportunities to live a healthy lifestyle, enjoy promote a variety of community gathering places and celebrate diverse cultural opportunities.
- ◆ To provide convenient, safe and environmentally friendly transportation connections within Redmond, and between Redmond and other communities for people and goods.

◆ To remain-cultivate a well-connected community of good neighbors, working together and with others in the region to implement a common vision for Redmond's sustainable future.

## B. Our Future Vision for Redmond in 203022

What would Redmond be like as a place to live, work, or visit if the community's values and preferences were achieved? The vision statement describes Redmond in the year 203022 if the Comprehensive Plan were implemented.

#### **Community Vision Statement**

In 203022, Redmond citizens describe their community as one that is complete, offering a wide range of services, opportunities, and amenities. It's a community that has acted to maintain a balance among the three pillars of sustainability while gracefully accommodatinged growth and change: as a result, while ensuring that Redmond's high quality of life, cherished natural features, distinct places, and character are not overwhelmed enhanced. The community's evolution has successfully woven the small town feel of older, established neighborhoods with the energy and vitality of Redmond's urban centers. The result is It's a place where people are friendly, often meet others they know and feel comfortable and connected. It is a place where diversity and innovation are embraced, and collaborative action is taken to achieve community objectives. It's a place that is home to people from a variety of ethnic backgrounds, which contribute to the richness of the City's culture.

Redmond Library art garden

Achieving a balance between accommodating growth and preserving Redmond's unique features and livability was challenging, but over the past 20 years through the clear, shared direction contained in the Comprehensive Plan, the vision has taken shape, and throughout Redmond the results are apparent.

In 2030, Redmond's two urban centers – Downtown and Overlake – are thriving centers of residential and commercial activity. Downtown is an outstanding place to work, shop, live and recreate and is a destination for many in Redmond and in the region. Attractive offices, stores, services, and residential developments have contributed to a new level of vibrancy while retaining a small-town-comfortable, connected feel that appeals to residents, business and visitors-alike. Many more people live Downtown, and housing choices include a significant share of moderately priced residences wide range of pricing options. Strategic public and private investments have created a true multi-dimensional urban center with several new and expanded public amenities, including a the City Hall campus, and Downtown Ceentral Park and the Redmond Central Connector that is a are gathering places for the community as well as ; an arts and community cultural center, a technology museum, a pedestrian connection to Marymoor Park, a vibrant Saturday market that is open all year,

and a variety of quality arts and cultural programs and performances.

Various portions of Downtown have their own identitiesy, design and appeal, yetand it is easy to walk, bicycle, use transit or drive between them as well as to the rest of Redmond and the region. Many visitors park in one of the conveniently located garages and walk or take transit to get to their destinations or park in one of the conveniently located garages. While pedestrian and bicycle access are emphasized, Downtown also provides for vehicular access and those who wish to drive through have other preferred routes to use. The congestion of 20 years ago has been tempered primarily by providing reasonable and practical convenient and effective transportation alternatives together with improved operations and then increased capacity in strategic locations, such as SR 520 and

important connections in the street grid.

Old Town thrives as a focus for retail activity that attracts pedestrians, providing a distinctive selection of stores, restaurants, boutiques, and theaters, as well as varied housing opportunities. New buildings blend with refurbished buildings, retaining the area's historic character. Cleveland Street is a pleasant place to walk or sit and people fill the street during the day and evening. The Redmond Central Connector, (Tthe former railroad right-of-way), has been transformed to an urban green space that people of all ages enjoy, with convenient access to light rail as well as places to stroll, gather and talk

with others, celebrate, or stop and peek in store windows while walking to Old Town or Redmond

Town Center.

Large open spaces, such as the Sammamish River, <u>Downtown Central Park</u>, the <u>Redmond Central Connector</u>, Anderson Park, and Bear Creek, as well as abundant landscaping and a system of parks and other gathering places, create a sense of Downtown as an urban place within a rich natural environment. A network of walkways, trails, vista points, and plazas enable people to enjoy the natural beauty of the river, views of surrounding hillsides and mountains and other points of interest. Recent developments along the Sammamish River are oriented to and embrace the river, while maintaining adequate natural buffers.

Overlake has become recognized as a regional urban center that is the location of internationally known companies, corporate headquarters, high technology research and development companies, and many other businesses. While intensively and efficiently developed, the employment areas retain their campus-like feel due to attractive landscaping and the protection of significant trees and other important natural features. During the past 20 years, redevelopment of the area in the southernmost part of Overlake Village has brought retail storefronts closer to the street and improvements to streetscapes to reflect the green character of Redmond, making the area more hospitable to transit, pedestrians and bicyclists. This portion of Overlake has also become much more diverse, featuring small neighborhoods with a mix-variety of housing choices, small-scale shopping and services to serve employees and residents, and connections to a network of parks, sidewalks, and trails and transit services. In many ways Overlake has demonstrated that high technology uses can thrive in a balanced-sustainable urban setting that offers opportunities to live, work, shop, and recreate to an

increasingly diverse workforce.

Residential Redmond neighborhoods are is treasured for its their attractiveness character, natural assets, friendliness friendly and welcoming atmosphere, diversity, safety and

quietness\_settings. Redmond includes a broad choice of housing types at a range of prices, including affordable homes. During the past 20 years, there has been a lot\_much more variety in the types and prices of newly homes constructed constructed homes in neighborhoods, including more cottages, accessory dwelling units, attached homes, live-work units and other smaller single-family homes. New homes blend with existing homes and the natural environment, retaining valued characteristics of existing neighborhoods as they continue to evolve. While single-family neighborhoods have remained stable, the number and variety of multi-family housing choices have increased significantly, especially in mixed-use developments in the Urban Centers. Through careful planning and community involvement, changes and innovation in housing styles and development have been successfully embraced by the whole-community. Residents enjoy a feeling of connection

#### to their neighborhoods and to the community as a whole.

Redmond has <u>acted to</u> maintained a strong economy and a diverse job base. The City is the home to many small, medium-size and locally owned businesses and services, as well as nationally and internationally recognized corporations. Redmond is widely recognized as a community that is inviting for advanced technology, and businesses are proud to be partners in the community. The City provides a <u>positive</u> business climate that <u>supports innovation and</u> attracts sustainable development to the community <u>while retaining and retains</u> existing businesses. Likewise, the successful companies return benefits directly and indirectly to the community. A prime example of this is the support that both the residents and the business community have given to the school system to create an excellent high quality educational system that serves the needs of <u>people citizens</u> of all ages.

Nintendo of America in Overlake

In 2030 Redmond has a park and open space system that provides a natural area or recreational opportunity within walking distance of every resident. Neighborhood and

community parks contribute to a high quality of life in Redmond by providing a full array of opportunities ranging from active recreation, such as sports, games and swimming, to more restful and reflective activities, such as walking and viewing wildlife. Residents enjoy larger natural areas, such as Watershed and Farrel-McWhirter Parks, as well as smaller open spaces and gathering places located throughout the City close to residences and work places. Indoor and outdoor recreational facilities and programs meet the needs of residents of all ages. Known as the bicycle capital of the Northwest, Redmond has developed an excellent system of bike paths and trails that are used for recreation, commuting and riding to schools, parks, and other destinations. The City is framed within a beautiful natural setting, with a system of open spaces and parks with diverse natural resources that provide habitat for a variety of wildlife, and serve environmental functions. Lake Sammamish, the Sammamish River, and Bear Creek, historically surrounded by farmland, are present in the heart of Redmond. These are key focal points of Redmond's park system, with many miles of trails and a variety of parks are located alongside. Public access to shorelines along these water bodies are enhanced, while maintaining protection for the natural environment.

Green spaces and interconnected trails and paths support active, healthy living. Redmond has an excellent and readily accessible system of paths and trails used by walkers, cyclists, equestrians, and others as they recreate and commute, both within the City and to other parts of the region.

Parks and indoor recreation facilities are vibrant gathering places where recreation and cultural events attract a wide range of ages and cultures. Recreation programs are continuously updated to reflect the changing needs of a diverse population and to make Redmond an active and interesting place to live and visit.

Other indoor recreation facilities provide unique recreational opportunities, such as aquatics, indoor field sports, classrooms for recreation and arts programs, gymnasiums, and dedicated fitness and dance spaces. Collaboration with other communities and agencies helps Redmond reach its goal to have year-round facilities to serve its residents and employees. This is cost efficient and enables each community to achieve more than might be possible independently.

The City's parks, innovative recreation services, unique art and cultural experiences continue to provide a high quality of life in Redmond. Community members are able to improve their health and education, appreciate art, enjoy great parks, and celebrate the cultural diversity of Redmond.

Redmond has embraced **energy efficient and environmentally sound transportation systems.**The City has invested strategically and leveraged regional funds to improve transportation choices and mobility, and every year more people walk, bicycle, carpool, or use transit or alternative fuel vehicles to travel. Transit service links all of Redmond's neighborhoods to the hubs of Downtown and Overlake, creating an attractive and practical transportation alternative. Overlake and Downtown are extensively served by transit that provides easy access to many destinations in the region. Transit stations along the route include shops, restaurants, offices, and residences.

Downtown Redmond Park and Ride

People spend less time traveling and more time where they want to be. All Redmond homes, schools and businesses have high-speed access to information and communication. More neighborhoods and workplaces are served by nearby stores and services that are small in scale and well-designed. Significant investments in SR 520, I-405, and regional and local transit routes have improved mobility for people and goods. In Redmond, roadway projects have been built where needed to improve safety and operating efficiency, and the City has maintained a good system of access and circulation for delivery and freight. Most streetscapes are attractive and functional for various travel modes, with street trees and landscaped areas that separate pedestrians from traffic.

Redmond's 2030 transportation system offers people a variety of real choices for how we get between where we live, work, shop and play. Each year, more people walk, bicycle, carpool, or use transit to travel within the City to access the regional bus and light rail system because land uses that reflect our vibrant community character have created a strong market demand for these options. Our transportation infrastructure reflects this by prioritizing more people-oriented travel that supports Redmond's land use, manages our limited roadways most efficiently, and provides a transportation system that embodies the City's sustainability principles and achieves Redmond's land use pattern and vision.

The City has invested strategically and leveraged regional funds to ensure a safe, well-maintained system, improve transportation choices and mobility, and support our two Urban Centers, Downtown and Overlake. Neighborhoods have increased access to the hubs of Downtown and Overlake, neighboring cities, and the region. Significant investments in SR 520, I-405, and regional and local transit routes have improved mobility for people and goods. In Redmond, roadway projects have been built where needed to improve safety and operating efficiency, or to create more accessible connections. The City continues to maintain an effective system of access and circulation for delivery and freight. Streetscapes are attractive, well designed, and enhance environmental quality for various travel modes.

In responding to significant energy costs and new vehicle fuel options and technologies, the City has developed alliances with other agencies and the private sector to create new opportunities and efficiencies. In turn, these alliances support easy access to electric vehicle charging stations and other alternative fueling infrastructures as well as access to information about travel conditions, incidents, and transit arrival and departure times.

Infrastructure and services have been provided to meet the needs of a growing population and as well as to correct existing deficiencies promote a safe and healthy community. The planning and placement of utilities in Redmond has supported the community's vision for the location and amount of growth. Long-term planning for utilities has contributed to a high quality of life for Redmond residents and businesses by ensuring efficient utility delivery. Proper utility planning has also protected Redmond's natural environment and resources. Upgrades to the sanitary sewer system have eliminated many septic systems, thereby controlling contaminants released into the environment. The City has protected the natural environment by developing stormwater systems to prevent reduce excess stormwater runoff, by designing and upgrading systems and plans to prevent damage to the environment, and by fostering conservation, operationally and by implementing low impact development practices.

Stormwater treatment

Redmond provides high-quality public safety services has excellent police and fire protection and well-maintained and dependable public facilities. The community continues to enjoy excellent a rapid fire and emergency response times, professional police services work, beautiful parks, pure clean drinking water, and effective wastewater and stormwater management because the capital facilities needed to provide these services were, and still are, planned and maintained for the long-term. An efficient multi-modal transportation system has taken shape and is continually improved. This long-term planning for services and facilities carries out the Comprehensive Plan goals and

policies, such that new development and new services and facilities arrive concurrently.

Redmond residentscitizens embrace and support the high-quality educational, cultural, and recreational facilities in the community. The City works in partnership with schools, businesses, service providers, and other organizations and jurisdictions to help maintain and strengthen a human services network that provides the food, shelter, job training, child care, and other services residents need to be thriving members of our community. Locally grown food sources, farmers markets, and community gardens provide healthy and sustainable options. Public art and cultural and arts events are also integral to the City for community building, connecting people with arts and culture, and as a catalyst for creativity within the community. Redmond is recognized for its outstanding visual and performing arts programs that attract a wide range of ages and cultures and reflect the needs of a diverse population. It is an inviting place for artists to live and work, contributing to the overall desirability and charm of the community. A center to showcase performing and visual arts will be sited in a conveniently located, highly visible and active part of the City. The City works as a partner with schools, businesses, service providers, and other organizations and jurisdictions to help strengthen a human services network that provides vulnerable persons the food, shelter, job training, child care, and other services they need to become more independent.

Locally grown food sources, farmers markets, community pea patches and home gardens provide healthy and sustainable options.

Redmond in 203022 has maintained a very green character. Citizens benefit from its livability which contributes to the general quality of life. The City is framed within a beautiful natural setting

and open spaces and an abundance of trees continue to define Redmond's physical appearance. including forested hillsides that flank the Sammamish Valley, Lake Sammamish and Bear Creek. Clean air quality not only contributes to a healthy community, it also helps keep the scenic mountain vistas visible from the city. Likewise, reduction in greenhouse gas emissions and particulate air pollutants enhances these benefits. A system of interconnected open spaces provides habitat for a variety of wildlife. The City prides itself for its environmental stewardship, including an emphasis on sustainable land use and development patterns, landscaping that requires little watering, and other techniques to protect and conserve the natural environment while flourishing as a successful urban community. People continue to enjoy Lake Sammamish and the Sammamish River, noted for their water quality, are used for boating, swimming, and other types of recreation. Through many cooperative efforts, the improved water quality is demonstrated annually in the increasing salmon runs. Bear and Evans Creeks provide regionally significant habitat for wild salmon spawning and rearing. Through many cooperative efforts, the improved water quality is demonstrated annually in the increasing salmon runs. Public access to shorelines has been enhanced while protecting the natural environment and property owners' rights. The open space and agricultural character of the north Sammamish Valley has been maintained and is highly valued by the community. Through the joint efforts of cities-Redmond, and the King County, and Washington State, the Bear Creek and Evans Creek Valleys remain rural, as do the areas north and east of the City -remain rural.

Formatted: Highlight

Redmond has reached its ultimate size, having annexed all remaining territory in its Potential Annexation Area so that residents may receive a full range of urban services. The new neighborhoods have been seamlessly interwoven with existing neighborhoods. The process of annexation was logical and orderly, has alloweding the City to provide these new citizens residents to enjoy areas with high-quality facilities and services.

Redmond is an integral member of the regional planning community. As was the case in 201004, Redmond continues to work cooperatively in regional planning with neighboring jurisdictions, King County, neighboring counties, State agencies, and other jurisdictions. Redmond is an active member of regional planning organizations where it simultaneously advances the interests of Redmond community members eitizens and works toward regional goals.

Though the City has experienced growth and change during the past 20 years, Redmond has maintained its distinctive character. The quality design of new development is a reflection of the value Redmond community members citizens place on the community's appearance. The design also reflects the diversity of the community. Care has also been taken to create distinctive employ special treatments on identified streets and pathways, and to enhance the comfort, safety, and usability of public places. Public view corridors and entryways have been identified, preserved, and enhanced. The City's historic roots are still apparent through preservation of special sites, structures,

Formatted: Highlight

and buildings. Interpretive signage has been used in addition to enhance the City's sense of its heritage.

Community gathering places are found throughout the City. Spaces for parks and plazas have been acquired and improved by the City and plazas have been er incorporated into new developments. Both public and private investment into place-making has createdcreates and maintains spaces where informal social gatherings and community building occur. The City and private partners has have continued to sponsor a wide variety of community events in an array of public places. Community members also enjoy community gardens, parks and plazas, and walkable

and bikable neighborhoods which support healthy lifestyles and a sustainable future.

Care has been given to preserve elements of the natural environment. Landscaping regulations have ensured preservation of special natural areas and significant trees that define the character of the City. New landscaping has, when appropriate, incorporated native plants and low impact development techniques. Areas of open space and forested groves near Town Center, along Redmond Way, and in other locations have been preserved where possible through public/private collaboration. Through creative design, public and private projects have incorporated natural features and enhanced natural systems. Redmond continues to promote the value of the natural environment by inventorying and monitoring the elements that define the City's green character, including forested parks and open space.

The cost of providing and maintaining Redmond's quality services and facilities is borne equitably, balancing the needs of the community with those of the individual. Redmond continues to draw from diverse revenue streams in order to finance capital facility projects.

Additionally, maintenance of new facilities is anticipated well in advance as part of the capital planning program ensuring facility maintenance costs can be effectively incorporated into the City's operating budget. The public facility costs associated with new growth are recovered in part using impact fees that reflect up to date costs, including those related to land acquisition and construction. In addition, Redmond continues to seek grants and other outside funding in order to maintain its high quality of life.

Public participation

Redmond <u>has</u> is an effective, responsive local government that responds to and anticipates the changing needs of the community. **Many <u>people citizens</u> actively participate** in Redmond's planning process and system improvements, and their preferences are incorporated so that Redmond continues to be the place <del>community</del> desired by its-members of the community<del>citizens</del>.

In 20<u>3022</u>, as in 20<u>1003</u>, Redmond is a community working together and with others in the region to implement a common vision for Redmond's sustainable future. of good neighbors.

### C. Framework Policies

To be effective, the goals and vision must be translated into policies, plan designations and actions. The framework policies are the overarching policies that help to communicate how the community wants Redmond to look and feel over the next 20 years and that set the direction for the rest of the Comprehensive Plan. In contrast, policies in the various elements, such as Land Use or Housing, are more detailed and describe methods of accomplishing the vision. The framework policies are not listed in priority order, and need to be viewed as a whole that is balanced over time.

Participation, Implementation and Evaluation

FW-1 Support a sustainable community that recognizes that people, nature and the economy are all affected by both individual and collective actions.

Encourage active participation by all members of the Redmond FW-1.5 community in planning Redmond's future.

Formatted: Highlight

Comment [C12]: Item GVF – 1, consistency with Capital Facilities Vision Statement

Formatted: Highlight

Comment [C13]: Also from CF Vision Statement

Formatted: Highlight

Formatted: Highlight

Public participation

- When preparing City policies and regulations, take into account the good of the community as a whole, while treating property owners fairly and allowing some reasonable economic use for all properties. Require predictability and timeliness in permit decisions.
- FW-3 Establish and Support a culture of dialogue and partnership among City officials, residents, property owners, the business community, and agencies and organizations.
- Evaluate the effectiveness of policies, regulations and other implementation actions in FW-4 achieving Redmond's goals and vision for a sustainable the future, and take action as needed.

#### **Conservation and Natural Environment**

FW-5

Protect the ecological functions of area ecosystems and enhance the quality of the natural environment by protecting and restoring important critical areas, such as streams, wetlands, and Aquifer Recharge Areas, and by retaining and protecting significant trees and other natural resources. Protect, enhance and restore habitat and natural ecosystems to levels of function that provide resilience and adaptability, prevent natural hazards, and support biological imperatives for clean water and air.

- FW-6 Protect and restore the natural resources and ecological functions of shorelines, maintain and enhance physical and visual public access, and give preference to uses that are unique or dependent on shoreline locations.
- FW-6.5 Improve the response and resiliency of the City to climate change impacts in built, natural, and social environments with an emphasis on public health.
- Support Redmond as an urban community that values clean air and water, views of stars at night, and quiet neighborhoods.
- FW-7.5 Achieve reductions and mitigate impacts community-wide in from greenhouse gas emissions and criteria air pollutants. Additionally, promote efficient energy performance and use of alternative-energy-sources that move beyond fossil fuels.
- Emphasize Redmond's role as an environmental steward by conducting City business FW-8 in a manner that:
  - ◆ Increases community understanding of the natural environment and participation in protecting it through education and involvement programs; to promote active participation in addressing environmental challenges and solutions.
  - Promotes sustainable land use patterns and low-impact development practices; and
  - Leads by example in the conservation of natural resources such as energy, water and trees, and avoidance of adverse environmental impacts.

#### Land Use

Ensure that the land use pattern accommodates carefully planned levels of development, fits with existing uses, safeguards the environment, reduces sprawl, promotes efficient use and best management practices of land, provides opportunities to improve human health and equitable provision of services and facilities, encourages an appropriate mix of housing and jobs, and helps maintain Redmond's sense of community and character.

#### Ensure that the land use pattern in Redmond meets the following objectives:

#### FW-10

- ◆ Takes into account the land's characteristics and directs development away from environmentally critical areas and important natural resources;
- ◆ Encourages redevelopment of properties that are underutilized or inconsistent with the Comprehensive Plan designation;
- ◆ Supports the preservation of Preserves—land north and east of the City, outside of the Urban Growth Area, for long-term agricultural use, recreation, and uses consistent with rural character;
- ◆ Provides for attractive, affordable, high-quality, and stable residential neighborhoods that include a variety of housing choices;
- ◆ Focuses and promotes office, housing, and retail development in the Downtown and Overlake Urban Centers;
- ◆ Retains and encourages research and development, high technology, and manufacturing uses in portions of Overlake, Downtown, Willows, and SE Redmond;
- Provides for industrial uses in suitable areas, such as portions of the Bear Creek Southeast Redmond Neighborhood;
- Provides opportunities to meet daily shopping or service needs close to residences and work places; and

 Maintains and enhances an extensive system of parks, trails, and open space; and Provides and enhances the geographic distribution of parks and trails to support active, healthy lifestyles;

◆ Advances sustainable land development and best management practices, multimodal travel and a high quality natural environment.

Plan to accommodate a future population of 782,000 people and an employment base FW-11 of 119,000 126,600 118,000 jobs in the City of Redmond by the year 203022.

Comment [C15]: Item GVF - 4

FW-12 Promote a development pattern and urban design that enable people to readily use alternative modes of transportation, including walking, bicycling, transit, and car pools.

Village at Overlake Station

#### Housing

FW-13 types, sizes, densities and prices in Redmond to serve all economic segments and household types, including those with special needs related to age, health, or disability.

Encourage a housing supply in Redmond and nearby communities FW-14 that enables more people to live closer to work, reduce commuting needs, and participate more fully in the community.

#### Economic Vitality Development

Support sustainable and environmentally sound economic growth with appropriate FW-15 land use regulations and infrastructure investments.

FW-16 Maintain-Encourage a strong and diverse economy and tax base that provide a variety of job opportunities, support the provision of excellent local services and public education, and keep pace with economic and demographic changes.

Maintain-Cultivate and enhance a broad variety of retail and service business choices FW-17 that meets the needs of the greater Redmond community.

#### Neighborhoods

Strengthen ongoing <del>communication <u>dialogue</u></del> between each FW-18 neighborhood and City officials.

Neighborhood matching grant project

FW-19 Make each neighborhood a better place to live or work by preserving and fostering each neighborhood's unique character, and preparation for a sustainable future, while providing for compatible growth in residences and other land uses, such as businesses, services, or parks.

#### **Downtown**

FW-20 Promote an economically healthy Downtown that is unique, attractive, and offers a variety of retail, office, service, residential, cultural, and recreational opportunities.

Nurture a Downtown Redmond that reflects the City's history, provides a comfortable

FW-21 atmosphere and small-town look and feel, preserves its natural setting, integrates urban park-like qualities, and serves as the primary community gathering place and entertainment and cultural destination for the greater Redmond area.

Enhance the pedestrian ambiance of Downtown through public and private FW-22 collaboration and investments.

Foster Old Town's identity as a destination that has retained its historic identity and traditional downtown character, <u>and ensure that it is linked through attractive pedestrian connections to the rest of Downtown</u>, and provides an inviting atmosphere in which to shop, stroll, or sit during the day and evening.

#### Overlake

FW-24 Support the Overlake Urban Center as a focus for high technology and other employment located within a vibrant urban setting that provides opportunities to live, shop and recreate close to workplaces. Make public and private investments that reinforce the desired character and increase the attractiveness of the Overlake Urban Center as a place in which to walk, bicycle and use transit.

FW-25 Ensure that development and investments in the Overlake Urban
Center address transportation issues of concern to both Redmond and Bellevue, help to retain the character of nearby residential

neighborhoods, and enhance a green character within the area through addition of parks, street trees and landscaping as well as retention of significant trees and other natural features.

#### Parks and Recreation

FW-26 Maintain and promote a vibrant system of parks <u>rand</u> trails, <u>that are</u> sustainably designed, preserve various types of habitat and open space, art, and recreational facilities that provides infrastructure designed to meet community needs, enhances Redmond's high quality of life, and protects its the natural beauty. of Redmond.

Sammamish River Trail

Provide citizens of all ages, including seniors and teens, with diverse, attractive, safe, and accessible recreational and cultural opportunities including active recreation and social and educational activities that change with trends in the City's demographics.

Accommodate a broad range of community interests including active programs, such as sports, as well as opportunities for passive enjoyment, such as gathering areas and art, within a variety of civic settings.

#### Facilities and Services

Plan, finance, build, rehabilitate, and maintain capital facilities and services consistent with the following principles:

- Provide facilities and services that support the City's vision and Land Use Plan as articulated in the Redmond Comprehensive Plan;
- ♦ Ensure that capital facilities are <u>sustainable</u>, well-designed, attractive, and safe;
- ◆ Provide facilities and services that protect public health and safety;
- ◆ Ensure adequate provision of needed infrastructure and services;

- ◆ Allocate infrastructure funding responsibilities fairly; and
- Establish priorities for improvements and provide reasonable certainty that needed facility and service improvements are completed within a reasonable time.
- ◆ Optimize strategic actions and investments over near- (0-6 years) middle- (6-18 years) and long- (18+) term planning horizons, and while recognizing the need to retain flexibility to leverage opportunities and respond to changing conditions;
- ◆ Provide reasonable certainty that needed facility and service improvements are completed in a timely manner.

FW-29 Ensure that the cost of capital facility improvements are borne in proportion to the benefit received. Allocate the cost of facilities that are generated by and that benefit growth to those generating that growth.

#### Transportation

FW-30 Ensure that Redmond's <u>community</u> character as a green city with a small-town feel is protected <u>and enhanced</u>—when <u>by</u> planning, constructing, <u>operating</u> and maintaining the <u>a sustainable</u> transportation system.that <u>embodies the City's sustainability principles and Prioritize, plan, and invest in transportation to achieves</u> Redmond's <u>preferred</u> land use pattern and <u>vision.</u> community character objectives, while accommodating the adopted population and employment growth targets.

FW-31 transportation connections that are multi-modal, well-designed, and appropriately located for the movement of people, goods, and freight services, among Redmond's Downtown, residences, shopping, employment, government, parks, and schools.
