WILLOWS / ROSE HILL NEIGHBORHOOD NETWORK 2011

In considering highlighting, emphasizing, or preserving certain features, programs, or other components, what are your favorite aspects of the Downtown neighborhood?	While revenues are constrained in Redmond's fiscal year 2011 - 2012 budget, the City continues to pride itself on maintaining citywide and neighborhood infrastructure through capital investments. One type of capital investment is through the Neighborhood Matching Fund program. This program provides small grants of up to \$5,000 to groups of citizens working together to beautify their neighborhood. Past projects have included improvements to landscaping, entryway signage for subdivisions, and minor cul-de-sac island improvements. Candidate projects match the City's grant with equal value in dollars, work, or services. For additional information, please refer to http://www.redmond.gov/residents/neighborhood dmatchingfund Do you have suggestions for possible Neighborhood Matching Fund projects in the Downtown neighborhood that you and other Downtown neighbors help implement?	of the 2010 Education Hill neighborhood	-	What are your greatest concerns regarding the Downtown neighborhood, both today and during the next twenty years?	If you like, please share additional thoughts with us.	Do you have easy access to healthy food that you desire whether it be in your local grocery store, nearby restaurants, a farmers market, a garden or other means? If not, what would make it easier for you to access healthy foods?	facilities? If not, what changes would you
	Sidewalk and walking safety along north side of Redmond Way between 148th and 140th.		Traffic congestion.	The traffic cameras are annoying, because it turns our city into a place that has the perception of an unfriendly place to visit and live.			Sidewalks and safety for pedestrians along north side of Redmond Way between 148th and 140th.
	I would like to see an improvement in the section of Redmond Way between 140th and 148th Ave NE. There is no safe, continuous segment of sidewalk here on either side of Redmond Way which makes it difficult to walk or bike to downtown Redmond.					Yes, we have a variety of options nearby. One comment about gardening is that I remember last year, City of Seattle residents were given free bags of compost. It would be nice to see something like that for Redmond residents.	Having bike lanes and/or real sidewalks along the section of Redmond Way between 140th and 148th Ave NE would give me better access to the rest of Redmond. Also an outdoor swimming pool would be a nice addition to the facilities we already have.
I love that I live in a neighborhood that has; 1) no sidewalks, 2) everyone is on septic, 3) less chance of big/new growth, 4) neighbors are friendly and communicate well with each other (i.e.; socially, politically, local events, neighborhood watch, etc.).	The one and only thing that I personally would like to see continue on forever, is the Interlake Gun Club. One of the few remaining outdoor gun clubs in the area. Neighborhood Matching Funds could be spend on improving the club in order to keep it not only alive, but thriving by attracting new members. I do NOT wish to see "improvements" that attract developers (e.g.; sewer, sidewalks, etc.).	I would like to see an ongoing, ONLINE Willows/Rose Hill Neighborhood Watch Program.	Can we continue to use "Kirkland" in our USPS mailing address?	I bought my home here, because I love the "rural" feeling of my immediate neighborhood. I would like to keep it that way as long as possible.		I already have easy access to locally available healthy foods, as I happen to have a car. (e.g.; Whole Foods in Bellevue, Metropolitan Mkt. in Kirkland, local Farmers Markets, etc.).	I would love to see the return of a Heath Club in the "Red Apple Shopping Center" (located at NE 70th Place/Old Redmond Road and 132nd Ave NE). Perhaps something like a 24 Hour Fitness Center - or the like.
Willows Creek Neighborhood Park.	No.	map the neighborhood, particularly walking routes. set up social media for emergency preparedness.	Sidewalk to connect between 142nd Ave. NE and 148th Ave. NE on Redmond Way. We could easily walk to downtown Redmond but there is no safe way to get through that short stretch. The small stretches of sidewalk are extremely narrow and right next to a very busy street. I know there are issues with the terrain and the potential costs of having to build up or bridge over the ravines. But if we are going to be serious about reducing traffic to downtown Redmond, that would be a very helpful goal.	Traffic from Microsoft via 148th to Redmond Way to 405 - at times it is very difficult to get the 2.4 miles from downtown Redmond to my house in rush hour traffic.			
Keeping the quiet rural feeling, a place where nature and wild animals can still thrive. Kids can safely ride bikes and play without adding more concrete.	Offer a grant/bulk purchasing for those who wish to add fruit trees, berry bushes and other sustainable vegetation to their yards and to public areas and easements. Please do not spend money on "cookie cutter" neighborhood infrastructure such as signs, sidewalks, culverts, water retention ponds, islands, etc. Leave things as natural as possible, and enhance nature when and where appropriate.	boats and other detritus in some yards and encourage those who violate junk codes to voluntarily become compliant with the codes.	A deep concern is the introduction of the Egyptian Coptic Church's possible development. Just the extra concrete for a parking lot is appalling, and the additional traffic in our tiny neighborhood will add polution and safety concerns.	We are deeply concerned that our neighborhood will become just another subdivision with high-density housing and small lots, leaving no free space, room for nature and room and air for all citizens to experience nature first-hand, in walking distance. Kids and adults need to be able to see the deer, the birds, the raccoons, the trees, the water in the ditches and stay outdoors. Subdivisions discourage such living and are a blight on our standard of living. Numerous studies show that when people get outdoors and experience true nature, and not man-made ugly tract housing, they are healthier and happier. All caution should be used to avoid rampant development in this healthy neighborhood.

If not, what changes would you suggest to provide you with easier access to recreational facilities?
The somewhat rural feel in a close in location, that is a bit more affordable than the Bridle Trails area. Open fields, many larger lots, mixture of housing styles and grades relaxed and informal. Rural feeling roads curbless and soft shouldered.		Make sure the Overlay is aligned with the character and economics of the neighborhood that residents bought into.	A septic to sewer plan that provides a predictable and reasonable individual liability. Perhaps a well planned LID project.		Getting the notice in the mail before instead of the week after the meeting would be good.		
These responses are specifically about the NE Rose Hill area: It is the semi-rural aspect that is our favorite. Our Neighborhood Plan is focused on maintaining a degree of that as the area is annexed and developed in the future.	Since no development has happened in our neighborhood, there will be many opportunities for improvements as development happens. One for sure is some traffic calming at intersections within the neighborhood.	We personally would like to see the annexation of the entire NE Rose Hill area completed which would help in goals such as those mentioned. We currently have an e-mail list of over 60 families in the entire area.	Good communication is important. This will be especially important when development begins with construction. The Coptic Church property may be the first opportunity to see how well this is done.	on the City to raise the density, both from	The above concern happened in the past when annexation of the entire neighborhood was inevitable. Some who never wanted to be annexed ever, then signed a petition for higher density than the existing County zoning and what the Neighborhood Plan provided.		
quality of upkeep	none	Attend this meeting if possible	None Reducing traffic speeds on 132nd Ave. Continuing the sidewalk on the east side of 132nd Ave past 95th Str. More traffic calming devices Adding more crosswalks or traffic lights	Low crime and upkeep of the area Increasing traffic volumes and speeding			
The green belt behind RHJH the habitat and							
ecosystem are amazing! location	No, sewer access is more important than anything else.	Cement plans for sewer access in the neighborhood.	Those ares recently annexed need access to the sewer system, what's the plan?	Gaining access to the sewer system for the neighborhoods. It's a problem that nearest sewer line is down on Willows road when neighborhood is on top of Rose Hill. Need sewer lines to come up hill.			
	so that there is an abrubt stop to the bike lane. This is silly since there is a bike lane on either		so that there is an abrubt stop to the bike lane. This is silly since there is a bike lane on either	bike lanes being continuous pathways around our neighborhoods.			
appr. of groceriestore, rose hill school grasslawn in our backyard	no	?	don't rebuild the rose hill school!!	cutting down the rose hill woods			
I like the open spaces of the neighborhood and the sort of undeveloped quality.	Improve sidewalks to make safer.			Maintaining open spaces			
The recreational parks, paths, appearance and generally safe environment.	Not at this time.	I would like to see improvements to and or installation of usable sidewalks along 132nd Ave NE and NE 85th in the Rose Hill neighborhood. The current sidewalks are quite narrow and encroached upon by owner hedges and city trees. (Overgrown hedges and low hanging trees)	Usable sidewalks, increased traffic congestion, speed (NE 85th and 132nd Ave NE).		Redmond is a fine city to live in. It appears to me the future is of Redmond is being planned for intelligently. Thank you for that and maybe we can make the Willows/Rose Hill neighborhood even more pedestrian friendly.		
The trees lining Willows Rd.	Oleanian authoris de la						
The mix of developed land with undeveloped land. The presence of greenbelts.	Clearing out the stream beds that run through the neighborhood including the Puget Sound Energy right of way.		See my answer regarding a grant from the City.	Overcrowding and the elimination of green space.
