

Memorandum

To: Planning Commission

From: Lori Peckol, Policy Planning Manager, 556-2411
Don Cairns, Transportation Services Manager, 425-556-2834

Date: May 27, 2009

Subject: 2022 Transportation Facilities Plan (TFP), Build-out Transportation Plan, Thoroughfare Plan and Growth Targets Amendment

BACKGROUND

The proposal would amend Redmond's Comprehensive Plan and Transportation Master Plan to update the City's 2022 growth targets and update the list of transportation facilities needed to support future growth. City Council last updated the 2022 employment target in 2006 and updated the 2022 Transportation Facilities Plan in 2007. As described in the attached Technical Committee report, these amendments are proposed to:

- Reflect updated neighborhood plans and recent and pending development activity.
- Respond with proposed updates to transportation plans to serve growth that is anticipated to occur between now and 2022 and between 2022 and 2030.
- Enable the City to more effectively carry out implementation actions for Redmond's Comprehensive Plan, including the pending Plan-Based Concurrency regulations.

PREPARATION FOR MAY 27 STUDY SESSION

Please review the enclosed Technical Committee Report and exhibit. The exhibit shows the staff recommended amendment. At the May 27 meeting, staff will introduce the proposal to the Commission and community members in advance of the June 10 public hearing. Staff anticipates that the Commission will also identify issues for discussion and questions at the May 27 meeting.

REVIEW SCHEDULE

The Commission will review this proposal at sessions on May 27, June 10 with the public hearing and on June 17. Planning Commission recommendation is anticipated on June 17 or June 24. Please contact either of us with questions or concerns.
