

## Registering an Account on *The Compliance Engine* for Confidence Test Report Submittal

Please be advised that as of January 1, 2017, Redmond Fire, along with several other jurisdictions in the metro Seattle area, have begun to use a new system, The Compliance Engine (<http://www.thecomplianceengine.com/>), for our confidence test reports. Please submit this and all future confidence test reports through this system.

To submit the report, you will need to register an account with the system. To do so, please click the *Register* link at the top of The Compliance Engine's website:

From there, follow the prompts for account creation. Please note that the information being asked for during the registration process is for a designated company administrator; you will be given the opportunity to set up additional users after the administrator's account has been created.

If you have any questions, please feel free to contact [ConfidenceTestReports@redmond.gov](mailto:ConfidenceTestReports@redmond.gov) for additional assistance!
