

**SENSITIVE AREAS MAP**  
**Wetlands**

**LEGEND**

- Wetlands
- Mixed Wetland/Upland  
 (High likelihood of wetland occurrence. Wetland boundaries cannot be distinguished in reconnaissance-level inventory. Exact location of wetland boundaries requires field delineation.)

- Sources:
- Aerial photo interpretation
  - National Wetland Inventory maps
  - SCS soil survey
  - Field reconnaissance (using DOE guidelines)
  - Local knowledge

These maps shall be used as a general guide; boundaries are approximate. Consult the Sensitive Areas Ordinance for procedures, definitions and criteria for determining actual boundaries.
