RE: City of Redmond's Request for Reconsideration

Dear Ms. Rice,

We support the City rescinding its original Request for Reconsideration as the updated version more accurately reflects that we were forthcoming in our disclosures of these alternates and their impacts. We do *not* object to the City's request for the modifications to the order regarding the alternates. We also agree with the City that our SEPA DNS may potentially be used for future development of these alternates if we choose to pursue that route at a later date.

Thank you for your time and attention to detail in this matter.

Sincerely,

Philip Keeton  
Head of Strategy & Operations  
Cascadia School
