PROJECT INFORMATION

PROJECT NAME: Hale Property

SEPA FILE NUMBER: SEPA-2018-01167

PROJECT DESCRIPTION:

Map amendment to the General Sewer Plan to show a rerouting of a sewer line. The General Sewer Plan is a functional plan that is incorporated by reference by the Comprehensive Plan.

PROJECT LOCATION: 134th Ave NE and NE 104th ST

SITE ADDRESS: 10412 134TH AVE NE
KIRKLAND, WA 98033

APPLICANT: Mike Walsh
Chase Killebrew

LEAD AGENCY: City of Redmond

The lead agency for this proposal has determined that the requirements of environmental analysis, protection, and mitigation measures have been adequately addressed through the City's regulations and Comprehensive Plan together with applicable State and Federal laws.

Additionally, the lead agency has determined that the proposal does not have a probable significant adverse impact on the environment as described under SEPA.

An Environmental Impact Statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. **This information is available to the public on request.**

ENVIRONMENTAL CHECKLIST

NON-PROJECT ACTION

(Revised May 2018)

Purpose of the Checklist:

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the City of Redmond identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions for Applicants:

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply" and indicate the reason why the question "does not apply". It is not adequate to submit responses such as "N/A" or "does not apply"; without providing a reason why the specific section does not relate or cause an impact. Complete answers to the questions now may avoid unnecessary delays later. If you need more space to write answers attach them and reference the question number.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the City can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. When you submit this checklist the City may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

<p>11. List any government approvals or permits that will be needed for your proposal, if known.</p> <p>Comprehensive Plan Amendment to existing sewer system.</p>	<p>CZ</p>
<p>12. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page.</p> <p>The project proposes to extend an existing sewer main, located at 134th Ave NE and NE 104th St, 10-feet south to an existing system. In its improved state, the system will continue along 134th Ave NE, allowing existing topography to aid with flow. Ultimately the main will re-connect, as designed, at 136th Ave NE and NE 100th St. The proposed project is associated with the Hale Short Plat Project (LAND-2018-00031).</p>	<p>CZ</p>
<p>13. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist</p> <p>The subject site is located within City of Redmond in Section 34, Township 26 N, Range 5 E WM.
