Hi Cathy,

We received the post-hearing comment below. I've already responded to let her know it was received.

Also, the Hearing Examiner would like to have all post-hearing comments together as one exhibit, all city responses to the comments as one exhibit, and all applicant responses submitted as one exhibit. So, three separate exhibits, in total.

If you have any questions, please let me know.

Thanks!

Kalli Biegel

Deputy City Clerk, City of Redmond

Hello,

My name is Rebecca Kinnestrand and I live at 7612 135th PL NE, Redmond, WA 98052.

I have been following the process of Energize Eastside for many years and I am extremely concerned about the safety of the proposed Energize Eastside project.

PSE has failed over and over to provide transparency regarding the safety of this project. The depth of cover for the pipeline is unknown and estimating this information is a safety hazard. Olympic Pipeline should be involved in order to uncover this information. The potential for catastrophe in our backyards is too great to not be certain.

Further, PSE has: failed to show the need of these new power lines, obscured the facts with unrealistic scenarios of peak loads, and have ignored real safety concerns.

I have sat in on City meetings where data from PSE is changed again and again. They are not telling the truth in order to increase their profits by building unnecessary and unsafe infrastructure.

Please deny this permit and protect the Redmond community.

Thank you,
Rebecca Kinnestrand
