Address: 12052 157<sup>th</sup> CT NE, Redmond State: WA Zip Code: 98052

### Comments (Attach additional sheets if necessary)

1. We are not clear if the church still owns this property. Both the church and the school, which recently started up, are present on the site. We object to adding what appears to be 60,000 square feet of buildings on this site.
2. We don't believe any zoning should be changed to accommodate the project. The church was approved assuming it would be a church, not a school with boarding. This change would add traffic behind our home 24/7 everyday, whereas the church is primarily just one day a week on Sunday.
3. We object to 3 story structures that block views and change this from a suburban to urban feel. We don't believe this was the intent of approving the church property and infringes on our view rights.
4. We object to boarding kids on the site 24/7. This school should not locate here if they want to do that.
