**Redmond**  
WASHINGTON

# What is a complete neighborhood?

*A neighborhood where most human needs and many desires are located within a comfortable walking distance.*

- Sometimes a biking distance is applied
- “Neighborhood” and “city” are both used in various definitions

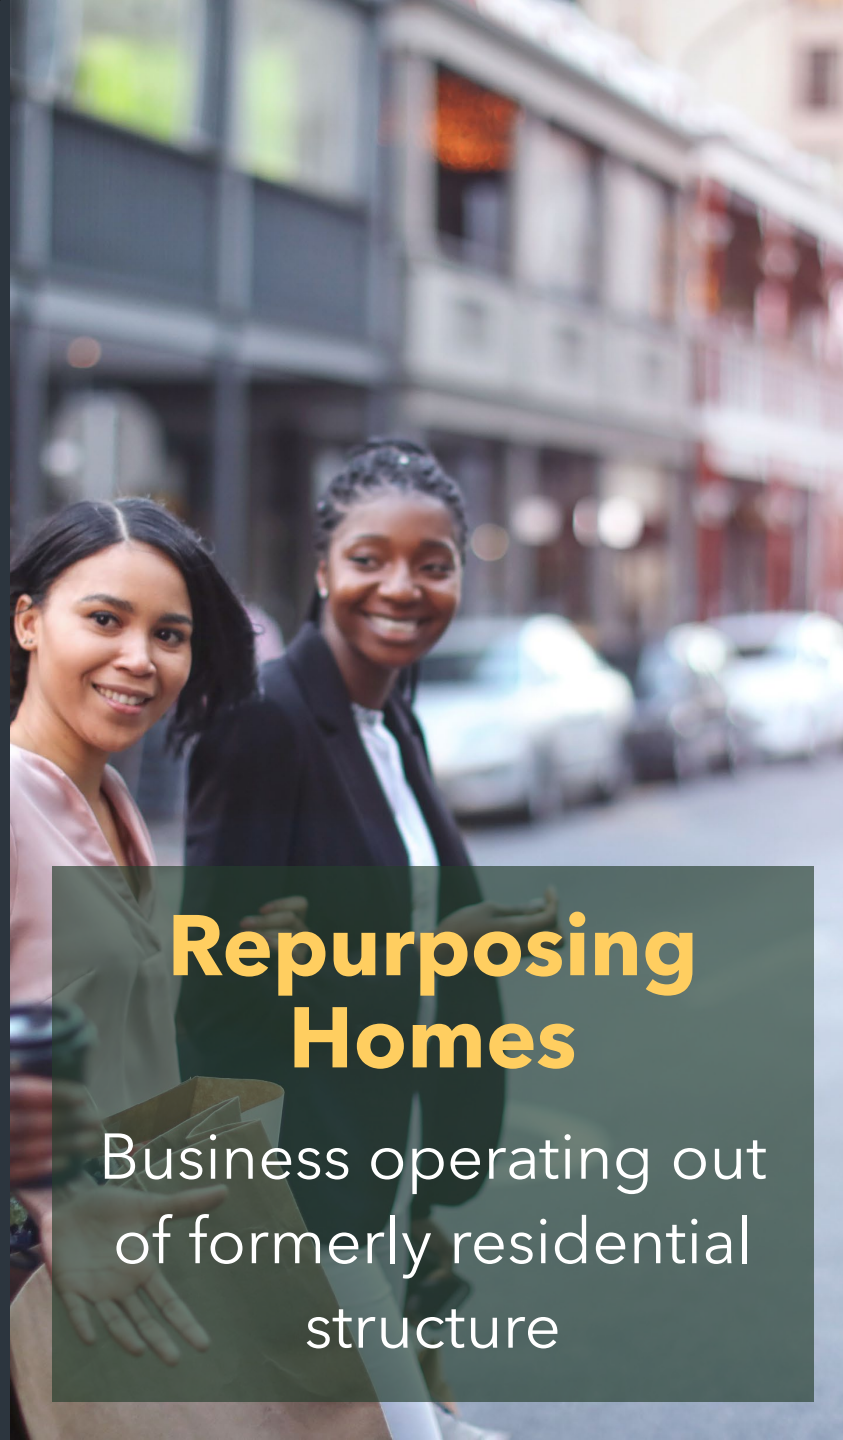

Adapted from [CNU's Public Square blog](#)

## **Micro or Mini**

Food Truck, Kiosks, Carts  
and other micro-space  
businesses

## **Repurposing Homes**

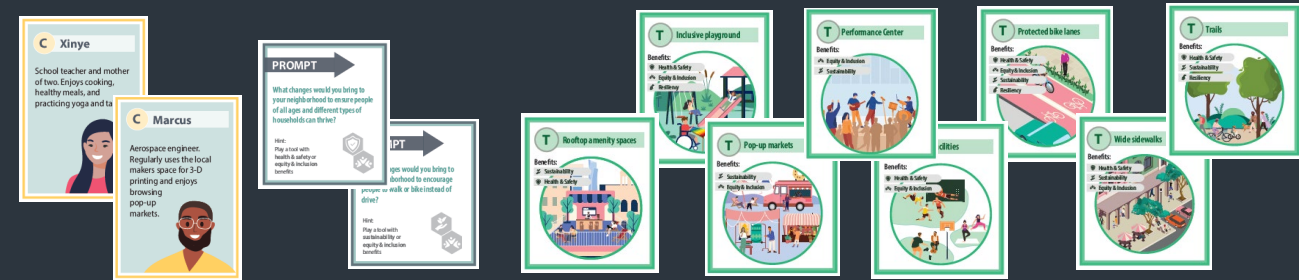

Business operating out  
of formerly residential  
structure

## **Commercial Clusters**

Neighborhood-scale  
businesses in clusters or  
corridors

# RedmondScapes

- Design a neighborhood where you would want to live, work, play, and shop
- Work in small groups to identify different tools that meet the needs of your characters and prompt cards
- Find tools that balance the themes of equity & inclusion, sustainability, resiliency, and health & safety

**REDMOND 2050**  
From suburb to city

Design a complete neighborhood, where you can live, play, work, and shop.
