WE ARE ORIGINS

Learn, understand, and experience the therapeutic potential of cannabis.

It's one of the most recognizable and beautifully complex plants on the planet. Its unique properties have fascinated us for ages. And today, modern advancements in medical and botanical sciences have gifted us even greater knowledge about its flower.

For experienced enthusiasts and first-time shoppers alike. We exclusively offer Origins Certified™ products, meaning you can rest assured that you're receiving the safest, 100% naturally grown flower on the market.

We are the comfortable, mature alternative you've been looking for.

AUTHENTICALLY NATURAL

We're just like you. When we go shopping, we're disappointed by the lack of attention and care for our wellbeing; and we are equally bothered by an inferior product hiding behind bargain prices and a mouthful of marketing.

That's why we treat you the way we want to be treated. No gimmicks. No distractions. No pressure to buy. Just naturally friendly people who look forward to making you happy.

PASSIONATELY KNOWLEDGEABLE

We are as deeply rooted in the origins of cannabis as we are on the forefront of its therapeutic potential-it's our art and our science.

Our Budtenders are dedicated to their craft and excited to share it with the world. Their personal and professional experience ranges from medicinal to recreational and everywhere in-between. They are the cause and effect of our commitment to quality in a consultative, comfortable environment.

PASSIONATELY KNOWLEDGEABLE

We are as deeply rooted in the origins of cannabis as we are on the forefront of its therapeutic potential-it's our art and our science.

Our Cannabis Guide are dedicated to their craft and excited to share it with the world. Their personal and professional experience ranges from medicinal to recreational and everywhere in-between. They are the cause and effect of our commitment to quality in a consultative, comfortable environment.
