I. Electronic Plan Review Submittal Standards

Electronic plans that do not meet the requirements below will fail and will result in the application being deemed incomplete and will not be reviewed until complete.

A. File Naming Standards:

Bolded items noted in Sections III, IV, and associated Cover Sheets indicate the naming convention in which the particular submittal must be named. For example, the General Application (Section III) must be named General Application and Cover Sheet & Site Plan (Cover Sheet A) must be named Cover Sheet & Site Plan.

B. Plan Sheet Standards:

All plans must be drawn to scale, as specifically identified in the checklist, and each sheet shall state the scale.

C. Acceptable File Types

All application materials shall be submitted in an electronic form (i.e. Flash Drive or CD). If submitting a CD, the CD should be permanently marked with the Project Name and submission date.

Plans: Plans must be submitted in a PDF format.

Documents: Calculations, reports and other supporting documents (non-drawing files) must be uploaded as a PDF.

D. Plan Orientation: All plans must be uploaded in “Landscape” format in the horizontal position.
II. PROFESSIONAL

All components of the application shall be prepared by the appropriate professional(s) licensed in the State of Washington. A license stamp or registration number, whichever is applicable, as well as the signature, shall be provided on the face of the application materials.

III. GENERAL

The applicant shall check each of the following items below to confirm that they are included in the application submittal package:

☐ A. Completed **General Application Form** and **Project Contact Form**.

☐ B. Application Fees

☐ C. **Greenhouse Gas Emissions Worksheet**

☐ D. If SEPA Determination is required, please see the SEPA Application checklist for submittal requirements.

☐ E. **Critical Areas Report**, if applicable, shall be prepared (see RZC Appendix 1: Critical Areas Reporting Requirements).

☐ F. **CC&Rs** with draft copies of covenants, conditions, and restrictions, or any other restrictions that may apply and private easements where applicable if not expressly created within CC&R's:
   1. Utility easements/maintenance
   2. Common access
   3. Joint parking
   4. Provisions for maintaining:
      a) common areas/open space
      b) landscaping
      c) drainage facilities
      d) driveways/roadways

☐ G. **Computation Sheet** submitted for precision and areas of all streets, lots, tracts, and the binding site plan boundary. Include a summation sheet for areas. The total area of streets, lots and tracts must equal boundary.

☐ H. **Stormwater Report** prepared by a registered Civil engineer including:
   1. Map of off-site areas draining on-site.
   2. Preliminary stormwater calculations of 6 months, 2 year, 10 year, 25 year and 100 year storm peak flow rates for:
      - Pre Development (wooded or meadow site)
      - Post Development (proposal)
   3. Approximate sizing of Stormwater Quality and Quantity Control systems.

☐ I. **Phasing Plan** for projects proposed to be phased, please provide a phasing plan identifying the proposed timing of each phase and a clear delineation of those improvements to be constructed for each phase.

☐ J. **Transportation Certificate of Concurrency** form must be filled out.

☐ K. **Noise Study** may be required to analyze current and proposed noise levels as well as methods of attenuation. The study must be conducted by a noise specialist.

☐ L. **Mitigation Plan** shall be prepared (see RZC Appendix 1: Critical Areas Reporting Requirements).

☐ M. **Irrigation Plan** showing proposed locations and size of irrigation backflow preventers, water meters, and sprinklers.

☐ N. **Public Notice Site Plan** showing the following information on the site plan suitable for public notice:
   - Show proposed project
   - North Arrow
   - Street numbers and/or names adjacent to the project boundary
   - Project Name
   - Identify the boundaries of any critical areas

☐ O. **Public Notice Tree Preservation Plan** showing the following information on the tree preservation plan suitable for public notice:
- Show proposed project
- Highlight, in the shade of green, trees on the site designated to remain (trees that are NOT being removed)
- North Arrow
- Street numbers and/or names adjacent to the project boundary
- Project Name
- Show an “X” over each tree proposed to be removed
- Include a key stating that the “X” represents trees proposed to be removed.

☐ P. **Reason for Request Letter** from applicant or his/her representative explaining the reason for requesting the proposed binding site plan.

☐ Q. **Title Report** or **Plat Certificate** providing the full title report that is dated within 90 days of the submittal date for all parcels involved.

☐ R. **ALTA Survey** may be required by the Technical Committee in certain circumstances.

### IV. FORMAT

For multi-sheet applications, the engineering site plan, architectural site plan and landscape plan shall all use the same base maps unless prior arrangements have been made. Additionally, a sheet index must be provided on the face of all plan sets.

A. Provide plans labeled **“Cover Sheet & Site Plan”** (which includes all information on Cover Sheet A, attached).

B. Provide landscape and tree preservation plans labeled **“Landscape Plan”** and **“Tree Preservation Plan”** (which includes all information on cover Sheet B, attached).
INSTRUCTIONS

All plans must be submitted in a searchable PDF format (non-scanned). The plans shall be drawn to an engineering scale of 1" = 20' or larger are required.

All components of the application shall be prepared by the appropriate professional(s) licensed in the State of Washington. A license stamp or registration number, whichever is applicable, as well as the signature, shall be provided on the face of application materials.

Please check each item below and write the applicable page # to confirm the item is included on the cover sheet & site plan.

For the subject property and surrounding properties within fifty (50) feet of the subject property unless otherwise noted, including adjacent rights-of-way, the following information shall be shown. These items shall be prepared by a registered Civil engineer in accordance with City of Redmond Design Standards, using 1990 City of Redmond datum for vertical and horizontal control.

GENERAL INFORMATION

☐ a. Name, proposed development name, section, township, range, City, County, and State. Page #____

☐ b. Name and address of the developer, owner, builder, surveyor, engineer, architect, planner, or other professionals involved. Page #____

☐ c. Legal description of the subject property (must be in agreement with Plat Certificate or Title Report). Page #____

☐ d. Declaration by owner and those with vested interest in subject property. Page #____

☐ e. Plat covenants as they may apply. Page #____

☐ f. Restrictions as they may apply (reference any prior site plan review approval). Page #____

☐ g. Impervious surface allowed and proposed. Page #____

☐ h. Approvals and certificates for the:

☐ i. City Engineer (provide space for the engineer’s seal) Page #____

☐ ii. City of Redmond Technical Committee Page #____

☐ iii. City of Redmond, Office of Finance, Director Page #____

☐ iv. King County Office of Assessments, County Assessor Page #____

☐ V. King County Office of Assessments, Deputy Assessor Page #____

☐ i. Recording Certificate. Page #____

☐ j. Acknowledgements. Page #____

☐ k. Modifications/revisions. Page #____

☐ l. Notation of zoning. Page #____

☐ m. Total area: square feet/ acres. Page #____

☐ n. Parking spaces. Page #____

☐ o. Building uses. Page #____

☐ p. Location of existing and proposed easements. Page #____

☐ q. Location and size of any water courses, boundaries, or area, subject to inundation or storm overflows and marshes. Page #____

COVER SHEET & SITE PLAN

SECTION COMPLETE? ☐
r. If the project is located within a floodplain, you must provide the Base Flood Elevation. Page #____
s. Contain all other information as described by RCW 58.09.060 as revised. Page #____
t. The title block in the lower right corner to include:
   i. The name of the development
   ii. The section, township, range, and tax lot numbers
   iii. City, county, and state
   iv. City of Redmond, Office of Finance, Director Page #____
u. Notation of north point:
   i. North arrow
   ii. Basis of bearing (recorded survey)
   iii. Washington North Lambert grid Page #____
v. Indication of perimeter boundary, lot, and right-of-way lines with a notation of bearings (or azimuth from the north), distances, and curve data. The curve data must include:
   i. Radius, central angle, arc length, and tangents
   ii. Radial bearing for all:
      1. Points of compound curves and reverse curves
      2. The beginning and/or ending of all non-tangent curves
w. Delineation of:
   i. Easements to be dedicated or reserved for public use
   ii. Areas and facilities for the common use of residents with a notation for use
   iii. Existing easements Page #____
x. Location of all monuments found, set, and to be set. Page #____
y. Dedication of right-of-way or declaration by the property owner together with a provision for his/her signature and the acknowledgement of a notary public. Page #____
z. Description of easement provisions. Page #____
aa. Storm Drainage Covenant. Page #____
bb. Certification of the land surveyor that the binding site plan regulations have been complied with, that a proper survey was made, that the monuments will be set, and that lot and block corners will be correctly staked, together with provisions for his/her signature and seal. Page #____
c. Certification by the King County Finance Director and the City of Redmond Finance Department that no delinquent special assessments or property taxes exist with their respective jurisdictions to with provision of their signature. Page #____
dd. Certification of approval by:
   i. The King County Assessor and deputy assessor as indicated by their signature
   ii. The City of Redmond Engineer as indicated by his/her seal and signature
   iii. The City of Redmond, Technical Committee, Director of Public Works, and Director of Planning and Community Development indicated by their signature
   iv. The City of Redmond, Office of Finance Page #____
e. Recording certificate indicating:
   i. The time and date of recording
ii. The volume and page of the county records in which recorded

iii. Provisions for the signature of the King County Auditor Page #____

ff. Signature of all vested owners (notarized). Page #____

gg. The following must be appended to the site plan.

**Covenants**

All lots within this Binding Site Plan are subject to the covenants recorded the ___ day of __________, 20__ under recording number records of King County, Washington.

**Modifications/Revisions**

It is expected that modifications and revisions to this Binding Site Plan and its approved design plans, conditions of approval, and documents may be necessary and normal during the course of its development. The City of Redmond Technical Committee, which is composed of the Planning and Public Works Departments, shall review and take such action as they shall reasonably determine is consistent with applicable City policies and ordinances with respect to any proposed modification of deviation from the approved Binding Site Plan and/or and documents attached thereto. The burden of proof to demonstrate why a modification or deviation is needed shall be placed on the applicant. At the discretion of the Technical Committee, proposed changes may be referred to the City of Redmond Design Review Board for this review. At the discretion of the Technical Committee, the applicant may be required to record a revised and approved plan or document. There shall be no modification to the lot geometry to this Binding Site Plan except provided in this section.

**Land Surveyor’s Certification**

I hereby certify that the perimeter boundary of this Binding Site Plan as represented hereon is true and correct and is based on an actual survey and subdivision of section ___ township ___ north, range ___ east: W.M. that the courses and distances are shown correctly hereon; and that the perimeter boundary and interior lot corners will be staked correctly on the ground. Professional land surveyor certificate number ____________.

On this day of ___, ______________, 20__, before me, the undersigned, a Notary Public in and for the State of Washington, duly commissioned and sworn, personally appeared ______________ to me personally known (or proved on the basis of satisfactory evidence) to be partner of ________________ ______________, the partnership that he executed the within foregoing instrument, and acknowledged said instrument to be his/her free and voluntary act and deed, as partner therein mentioned.

Witness my hand and seal hereto affixed the day and year this certificate above written.

Notary Public in and for the State of Washington, residing in ______________ my commission expires: ______________

**Platting Requirements**

**Approval**

Examined and approved this ___ day of __________, 20__
Engineer, City of Redmond

I hereby certify that this Binding Site Plan is duly approved by the City of Redmond Technical Review Committee.

__________________________________________
Director of Public Works

__________________________________________
Director of Planning and Community Development

Office of Finance Certificate
I hereby certify that there are no delinquent special assessments, and all special assessments on any of the property herein contained, dedicated as streets of for other public use, are paid to date this day of ___, ___________ 20__.

Superintendent of Records

Dedication
Know all persons by these presents that we, the undersigned, owners of interest of the lands subdivided, hereby declare this plat to be the graphic representation of the subdivision made hereby, do hereby dedicate to the City of Redmond Washington for use by the public forever, all roads and streets shown hereon, and dedicate the use thereof for all public purposes not inconsistent with the use thereof for public highway purposes, with the right to make all necessary slopes for cuts and fills in the original reasonable grading of said roads and streets, and the right to continue to drain such roads and streets over and across any lot or lots, where water may take a natural course.

In witness whereof, we set our hands and seals.

__________________________
(Name of Dedicator)

Declaration
Known all men by these presents that we, the understand owners of interest in the land herein described do hereby make a Binding Site Plan pursuant to chapter 58.17 R.C.W. and declare this Binding Site Plan to be a graphic representation of same, and that said Binding Site Plan is made with the free consent and in accordance with the desire of the owners.

In witness whereof, we set our hands and seals.

On this day of ____, _____________ 20__, before me, the undersigned, a Notary Public in and for the State of Washington, duly commissioned and sworn, personally appeared ____________ to me personally known (or proved on the basis of satisfactory evidence) to be partner of ____________, the partnership that he executed the within foregoing instrument, and acknowledged said instrument to be his/her free and voluntary act and deed, as partner therein mentioned.

Witness my hand and seal hereto affixed the day and year this certificate above written.

Notary Public in and for the State of Washington, residing in ______________ my commission expires: ____________

ON SITE TRAFFIC CIRCULATION (INCLUDING CONSIDERATION FOR THE FOLLOWING)
☐ a. Backing zones (away from heavy use areas). Page #____
☐ b. Stacking/queueing of vehicles. Page #____
☐ c. Drop off zones. Page #____
☐ d. Parking areas, including stall delineation and dimensions. Page #____
☐ e. Truck/delivery areas with dimensions and turning radii. Page #____
☐ f. Parking layout (designed by a registered engineer for parking lots exceeding 200 spaces). Page #____

PEDESTRIAN/TRANSIT/BIKE ACCESS
☐ a. Sidewalk locations. Page #____
☐ b. Bike rack locations. Page #____
☐ c. Pedestrian circulation within parking lot. Page #____
☐ d. Connections to adjacent properties. Page #____
☐ e. Public Safety features. Page #____
☐ f. Connection from parking to building entrances. Page #____
☐ g. All existing and proposed driveways, intersections and land channelization within 150 of the subject property.
☐ h. Existing and proposed roadway improvements, including sidewalk, curb and gutter, tapers and street lights within 150 feet of the subject property.

**Existing and Proposed Utilities**

☐ a. Location and size of water facilities, including water meters and side sewers (Design Standards available at the Permit Center). Page #____

☐ b. Location and size of sanitary sewer facilities (Design Standards available at the Permit Center). Page #____

☐ c. Location and size of storm sewer facilities. Page #____

☐ d. Power, power poles, gas, telephone and cable. Page #____

☐ e. Fire hydrants. Page #____

☐ f. Vaults. Page #____

☐ g. Boxes. Page #____

☐ h. Underground duct runs. Page #____

**Existing and Proposed Fire Information**

☐ a. Fire Department access and turnaround.

☐ b. Fire hydrants.

**Existing and Proposed Grading**

☐ a. Profiles of existing or proposed road grades in excess of 10 percent. Page #____

☐ b. Show existing and proposed contour lines at 2-foot intervals. Page #____

☐ c. Designate steep slope areas (40% or steeper and 10-ft. vertical relief or more). Page #____

☐ d. Designate areas with greater than 8 feet of cut and/or fill, adjustment from the Technical Committee required. Page #____

☐ e. Designate retaining walls and rockeries over 8 feet, adjustment from the Technical Committee required. Page #____
Part 3: Cover Sheet B (Landscape & Tree Preservation Plans)

All plans must be submitted in a searchable PDF format (non-scanned). The plans shall be drawn to an engineering scale of 1" = 20' or larger are required.

All components of the application shall be prepared by the appropriate professional(s) licensed in the State of Washington. A license stamp or registration number, whichever is applicable, as well as the signature, shall be provided on the face of application materials.

Please check each item below and write the applicable page # to confirm the item is included on the site plan.

I. LANDSCAPE PLAN

CONCEPTUAL DRAWING (INDICATING THE FOLLOWING IN ACCORDANCE WITH RZC CHAPTER 21.32, LANDSCAPING)

☐ a. Existing vegetation to be retained. Page #____
☐ b. General location of proposed trees, shrubs and ground cover. Page #____
☐ c. A plant schedule providing the scientific name, common name, size and spacing of each plant as well as specie alternatives for trees, shrub masses and ground cover. Page #____
☐ d. Vegetation for blank screening. Alternatives to blank wall screening/relief could include:
   ☐ i. Material Differentiation
   ☐ ii. Texture Pattern
   ☐ iii. Color Variation. Page #____
☐ e. Parking/vehicle use area screening. Page #____
☐ f. Proposed location and species of replacement trees required. Replacement trees shall be designated as such on the plan and be distinguished from other landscape trees. Page #____

LOCATION, SQUARE FOOTAGE, PERCENTAGE, AND DIMENSIONS OF APPLICABLE LANDSCAPE AREAS

☐ a. Interior parking lot landscaping with computation of vehicle use areas. Page #____
☐ b. Linkage system landscaping - Downtown zone only. Page #____
☐ c. Perimeter landscaping and parking lot perimeter landscaping. Page #____
☐ d. Foundation planting. Page #____
☐ e. Minimum required and proposed site landscaping (percentage). Page #____

II. TREE PRESERVATION PLAN

Preliminary Tree Preservation Plan, labeled “Tree Preservation Plan” showing the surveyed location and drip line of all trees four (6) inches or greater in diameter at breast height (4½' above grade) within the site and for fifty (50) feet outside of the site. Individual trees shall be identified by size and species. Page #____

Where stands of more than twenty-five (25) trees will not be disturbed, the applicant must depict the size and species name of each significant tree, with the drip line of the stand together with a note indicating the total number of significant trees within the stand. Page #____

Each tree shown must be designated as removed, retained (no construction within 5 feet of the drip line), or impacted (trees proposed to remain, but have construction within the drip line or 5
foot drip line setback (only retained trees may be counted toward the 35% tree retention requirement). Page #____

- The five-foot drip-line setback shall also be shown for all trees proposed to be retained and impacted. Page #____

- A tree health assessment, labeled “Tree Health Assessment” prepared by a certified arborist shall be required for all trees on site that are 6 inches or greater in diameter. The tree health assessment shall also verify that all trees designated as retained are healthy trees.

- **Completion of Tree Preservation Summary Table (Attached).**
Part 4: Guidelines for Demonstrating Conformance with Tree Protection Standards

Contact: For additional information regarding these guidelines, please contact the City of Redmond’s Department of Planning and Community Development at 425.556.2494 or your assigned project planner.

Description: This handout is intended to both summarize tree protection requirements and to provide a sample format for demonstrating compliance with code.

Regulations Summary: The following table summarizes the regulations related to tree preservation in the City of Redmond. For more information, please refer to RZC Chapter 21.32 Landscaping.

**Measuring Trees (DBH):** Single-Trunk Trees. Trees are measured according to their Diameter at Breast Height, or “DBH”. “DBH” is the diameter, measured straight across the tree trunk at 4.5’ above grade.

*Multi-Trunk Trees.* Where trees have more than one trunk or stem at 4.5’ and those stems come from the same “base”, the DBH for each stem at 4.5’ is measured. The DBH is then the average of the DBHs of each the stems at 4.5’ above the ground.

Example: In the picture to the left, where the horizontal dark line is at 4.5’ high, the DBH would be the average of the diameters of A, B, & C. So, \( DBH = \frac{(DBH_A + DBH_B + DBH_C)}{3}\)

<table>
<thead>
<tr>
<th>Type of Tree (DBH)</th>
<th>Removal</th>
<th>Impacted</th>
<th>Retained</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Landmark (&gt; 30”)</strong></td>
<td>Prohibited, unless approved by an exception. A written exception request is required. Mitigation required, i.e. replacement trees at a ratio of 3:1, if exception is approved.</td>
<td>Prohibited, unless approved by an exception. A written exception request is required. Preferred over Removal.</td>
<td>Required for all Landmark Trees, unless exception is granted.</td>
</tr>
<tr>
<td><strong>Significant (6” - 30”)</strong></td>
<td>Regardless of the percentage of removed trees, mitigation, i.e. replacement trees at a ratio of 1:1, are required for each removed tree.</td>
<td>Encouraged over Removal.</td>
<td>35% of all Significant Trees Required.</td>
</tr>
<tr>
<td><strong>Notes</strong></td>
<td>No more than 65% of healthy Landmark + Significant Trees may be removed, unless approved by an exception. If approved, then mitigation is required, i.e. replacement trees, at a ratio of 3:1 if exception is approved. Tree Replacement Performance Bond required for each replacement tree. 3 year maintenance bond required after performance.</td>
<td>3-year Tree Replacement Performance Bond required for each replacement tree. The bond is used if an impacted tree dies and the applicant does not replace it.</td>
<td>5-year Tree Preservation Bond is required for each Retained Tree. The bond is used if an impacted tree dies and the applicant does not replace it.</td>
</tr>
</tbody>
</table>

Arborist Report: An Arborist Report shall document (1) the trees on site and (2) any off site trees that will be impacted by clearing or other improvements within 5 feet of its drip line. At a minimum, the arborist’s report shall:
• Describe the site in narrative and provide an aerial or site plan documenting the locations of tree stands.
• Describe the methodology, which must be considered the best of available science, that was used to rate each and every tree. Describe how trees were tagged in the field.
• Document through a table the following for each tree of 6” or greater in dbh: Tree Number, Species, DBH, Health, Comment on Health, and Proposed Action. The Tree Number is that number that is affixed to the tree in the field and is used to identify it on a surveyed map.
• Provide a surveyed map locating each tree, numbering each tree with its identification number, illustrating each tree’s dripline, and illustrating 5’ from each tree’s dripline. Symbols shall be used and described in a legend to distinguish the following groups: Unhealthy Trees to be Removed, Significant Trees to be Removed, Landmark Trees to be Removed, Significant Trees to be Impacted, Landmark Trees to be Impacted, Significant Trees to be Retained, and Landmark Trees to be Retained.
• Recommend actions for impacted trees and general management, as appropriate.
• Provide a map illustrating the locations of replacement trees.
• Provide an exception request for any proposed action that would not comply with the tree protection standards, such as: removing a healthy landmark tree or having a retained tree count below the required 35%.

**Summarizing Compliance with Code:** The following table provides you with the format that is required for summarizing a proposal’s conformance with the City’s tree protection regulations. The table must appear in the Arborist Report and on the Tree Preservation Plan, both of which are part of the application. Please include the total number of trees that are 6” or greater and the number of unhealthy trees in the report.
