House Bill 2005, passed by the Washington State Legislature in 2017, takes effect January 1, 2019. The bill created a model definition for “engaging in business” and the bill also created a minimum sales/revenue threshold for those coming in to the City to conduct business. If your business is located outside of Redmond AND you will gross less than $2000.00 in Redmond, registering for a Redmond Business License is still required but will be exempt from the license fee. If your business is located outside of Redmond AND you will gross less than $2,000 in Redmond – no payment is due.

Note: Enter NO PAYMENT DUE in Fee Due field in Business Activity section on previous page.

If you will gross more than $2,000 in Redmond –
Use either the “Reporting by Hours” method OR the “Reporting by FTE” method to calculate the fee due.

A. Reporting by Hours

Determining the total number of hours employees worked within the city:

Note: Employers without a full calendar year history would need to estimate the number of employee hours that will be worked in the current calendar year.

- Annual employee hours may be calculated based on the sum of employee hours on the four quarterly reports submitted to the Washington State Department of Labor and Industries for the previous year.
- The work figure used by L&I is 1,920 hours per year for a full-time employee.
- In addition to the annual employee hours reported on the L&I report, you must include employee hours for sole proprietors, owners, managers, partners, any family members working at the business, and any officers, agents or personal representatives acting in a fiduciary capacity.
- It will be the responsibility of the employer to determine the number of hours worked within the city.

Calculating the fee due (see box A at bottom of page):

- Enter the total number of employee hours and multiply by $.059895 to determine the total amount due.
- The minimum fee for the license is $115.00, which covers up to 1,920 hours worked in the calendar year. If the amount calculated is less than $115.00 enter $115.00 as “fee due”. If the amount calculated is greater than $115.00 enter that amount as “fee due”.

B. Reporting by FTE

Determining the number of full-time equivalent employees in Redmond:

Note: Employers without a full calendar year history would need to estimate the number of full-time equivalent employees who will work in the city in the current calendar year.

- The number of employees shall be based on the sum of the full-time equivalent employees in the four quarterly reports submitted to the Washington State Department of Labor and Industries for the previous year, divided by four.
- In addition to the employees reported on the L&I report, you must include sole proprietors, owners, managers, partners, any family members working at the business, and any officers, agents or personal representatives acting in a fiduciary capacity in the employee calculation.
- For businesses with employees who work less than 1,920 hours, the total number of hours worked by all such employees during the four quarters of the previous year shall be added together and divided by 1,920 to determine the full-time equivalent equivalency.
- Businesses that did not file quarterly reports with the Washington State Dept. of Labor and Industries shall determine the number of full-time equivalent employees.

Calculating the fee due (see box B at bottom of page):

- Enter the total number of full-time equivalent employees and multiply by $92.00 to determine the total amount due.
- The minimum fee for the license is $115.00, which covers up to 1 full-time equivalent employee for the calendar year. If the amount calculated is less than $115.00 enter $115.00 as “fee due”. If the amount calculated is greater than $115.00 enter that amount as “fee due”.
