We would appreciate feedback from the Applicant as soon as possible. I believe we have tried to clarify this in the past and were referred to their site plans. However, we have reviewed all public materials and cannot find a definitive answer.

Does the City have blueprints for the building?

Regards,
Sherry Stilin

Ben,

Can you have the Applicant verify the measurements from the top of the underground garage to the highest point of the east elevation in the four color-coded areas?

We have been unable to make exact determinations from the attached drawing and the site plan provided.

Thank you.
